

**Title:** QUALITY CONTROL INSPECTOR (QC)

**Reports to:** QUALITY CONTROL SUPERVISOR

**Date:** October 2011

**Job Summary:**

Reporting to the Quality Control Supervisor, the Quality Control Inspector will work as part of a team responsible for ensuring the end product meets drawing specifications and customer requirements.

**Essential Functions:**

Verify incoming, in-process and final product meets specifications by conducting visual inspection, and dimension verification.

Ensure non-conforming material is promptly quarantined and report to the Material Review Board for disposition.

Ensure Material Review Board disposition is carried out.

Ensure all quality documentation is properly filled out and complete.

**Job Qualifications:**

- Read, write and speak English.
- 20-20 vision (unaided or corrected).
- Correct colour recognition.
- Mechanical aptitude.
- Understand and apply Geometric Dimensioning & Tolerancing.
- Proficiency with precision measuring equipment, schematics, blueprints and other technical documentation.
- Possess a good working knowledge of welding, fabrication processes and controls.
- Familiar with special processes (I.E. plating, painting, heat treating.)
- Apply reliable measurement techniques.
- Experience with MS Office applications such as Excel and Word; comfortable with computer based systems.
- Mechanical Technologist diploma.
- Excellent interpersonal and communication skills.

**Must have or be able to obtain NATO SECRET clearance**
